Zuma Direct. Import & E-Commerce. FY26 Profits of \$173,000+

Import. Sell. Repeat. It's that simple.

Zuma Direct is an established importer and retailer of garden, landscaping and construction equipment, supplying machinery, tools and accessories to customers throughout New Zealand.

The business sources products directly from overseas manufacturers and sells them through an established online sales platform, as well as a highly successful Trade Me Store.

Product demand comes from a broad customer base including contractors, tradespeople, lifestyle block owners and DIY customers tackling projects big and small.

Efficiency is the key to this business. The current working owner works just 25 hours per week on average, enjoys low overheads, and has developed cost effective distribution arrangements with freight providers.

A new owner would have the opportunity to replicate the existing owner-operator model, reset as a fully managed business, or integrate the business into an existing, complementary operation.
