Northland IT Services Business For Sale - (CML 1115)

IT services business operating in the Northland region, providing managed IT support, networking, WiFi installation, and hardware/software solutions to both commercial and residential clients. The business has built a good reputation and maintains an established database of approximately 2,000 customers.

The 2025 financials show sales of approx. \$346,958 with Seller's Discretionary Earnings (SDE) of \$100,047, supported by a balanced revenue including 50% recurring income.

The business is currently run with low owner involvement (approx. 40 hours per month), offering a solid platform for a new owner.

Operating as a home-based/mobile business with no lease, this provides low overheads and flexibility.

This is a good opportunity for an existing IT business to expand into the Northland region as an add-on acquisition, or for an owner-operator seeking a business with recurring income.

Price: \$299,000 Includes stock (Approx \$3,000, subject to stock at settlement)
