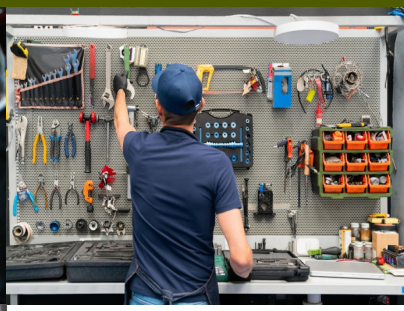
Mechanical Workshop Business for Sale Christchurch



A rare opportunity to secure a well-established mechanical repair workshop in a prime location just outside Christchurch's Four Avenues.

This busy, centrally located business enjoys a loyal customer base built over many years, servicing both local residents and CBD workers. With a bus stop conveniently located right outside, customers can easily commute to and from work while their vehicles are being serviced-an advantage that continues to drive repeat business.

A key strength of the operation is its Warrant of Fitness (WOF) inspection service. WOF testing provides a consistent and reliable revenue stream while also generating a steady flow of additional repair and maintenance work, making it a cornerstone of the business's ongoing success.

The current owners are retiring to travel the country, offering a genuine opportunity for a new owner to step into a proven and profitable operation.

Ideal for an owner-operator or automotive professional looking to acquire a well-positioned business with dependable income streams and growth potential.
