

Traffic Management Business for Sale Servicing the Central North Island

kakapo

FULLY MANAGED TRAFFIC MANAGEMENT
Central North Island

Fully Managed Traffic Management in Central North Island

We all hate an orange cone but appreciate a good business when we see one.

This up-and-coming business continues to win contracts and grow. With in-house traffic management planning, strong forward work / contracts with key market players. This business is primed for a solid future.

Currently run under management, there is scope for that to continue or have a fresh owner-operator come on board. It certainly would also be a good fix for an existing traffic management business to grow market share.

Great bolt on to an existing traffic management, transport or civil business.

Business Highlights

- In-house traffic management planning
- Strong contracted forward work
- High growth business
- Quality assets in place
- Solid operational team delivering to a high standard
- Great first business
