Type: **Manufacturing**

Engineering Business - North Island - High Performing: EBITDA ~\$2.4M | Fully Managed

A long-standing engineering business with a track record of strong earnings and scalable operations is now available for acquisition.

The business provides integrated industrial engineering services across design, fabrication, machining, installation and maintenance. This capability allows clients to engage a single contractor for complete project delivery or specialist work, supporting long-term relationships and repeat revenue.

Revenue exceeds \$10.M, with adjusted EBITDA approaching \$2.4M based on current trading. Performance reflects improved margins, disciplined pricing and effective utilisation of an established cost base.

Operations are supported by a purpose-built facility of more than 3,100 sqm, a significant plant and equipment base, and an experienced workforce of approximately 30+ staff.

A key feature is the established management structure. A long-standing GM is in place and responsible for day-to-day operations. Post-sale, the owner is available to remain involved in a part-time capacity overseeing a remote client site, while also providing ongoing support to the business as required, particularly in relation to key client relationships.

Key Highlights:

- EBITDA ~\$2.4M; revenue > \$10.8M
- Fully managed with GM in place
- 30+ years established
- Integrated, multi-discipline capability
- Significant plant, equipment, and facility
- Strong, repeat customer base

A compelling opportunity for an operator, strategic buyer, or investor seeking scale, earnings and a managed structure.

Expressions of Interest Over \$6,000,000.
