Location: **Auckland**  
Asking: **\$1,325,000**  
Type: **Manufacturing**

### High Performing Cabinetry Manufacturing Business-Auckland

\$500,000 PROFIT (SDE)

This is an outstanding opportunity to acquire a well-established, highly systemised cabinetry and lean manufacturing business operating across residential and trade channels.

The business has been trading for over 20 years and is a proven performer with consistent sales & revenue, strong discretionary earnings, and a stellar reputation.

The trade division provides consistent workflow and revenue stability, while the residential arm delivers higher-margin project work.

One of the value drivers is their ability to combine bespoke design capability with efficient in-house manufacturing.

- Dual-channel model - residential + trade manufacturing
- Strong repeat client base and key industry relationships
- Systemised LEAN manufacturing with proprietary quoting platform
- Experienced team in place, low owner reliance
- Latent capacity with growth upside
- Modern, well-maintained plant and infrastructure

A new owner doesn't require any further investment to grow, as the foundations are in place with good capacity available within the existing facility and systems.

This is one of the most impressive manufacturing businesses we have seen, and would ideally suit:

- Trade operator looking to scale
- Strategic acquirer seeking manufacturing capability
- Commercially minded owner-operator
