Recovery Hub | Turnkey Wellness & Recovery Facility For Sale

A rare opportunity to purchase Recovery Hub, an established wellness and recovery business in Lower Hutt with a strong local reputation, multiple revenue streams, fit-out, and excellent potential for future growth.

This turnkey business is well positioned within the growing health and wellbeing sector and includes:

- 2 traditional saunas accommodating up to 4 people each
- 1 infrared sauna accommodating 2 people comfortably
- 2 ice baths
- 5 compression boots, plus hip and arm compression attachments
- 2 imported lymphatic rollers, with Recovery Hub among the first in New Zealand to offer this service
- 2 contractor rooms, with flexibility for alternative use including a private infrared room
- A large open area well suited to physiotherapy, rehabilitation, or other allied health services

The fit-out also includes showers, toilets, rinse shower facilities, and 3-phase power, providing a strong operational base and flexibility for future expansion.

A further advantage is the existing reduced rent through a sublease arrangement, along with extra space that creates opportunity for service growth or additional income.

The sale includes the trading name, social media accounts, and website, giving a new owner the benefit of stepping into an already established brand presence.

Recovery Hub has built a loyal customer base and strong presence in the local market, with clear potential for a new owner to expand through memberships, partnerships, events, and complementary health services.
