

Phone Case Vending Machine Business for Sale Auckland City

Unmanned Phone Case Vending Machine | Approx. \$5K/Month Revenue | Low Overheads | Turnkey Business | New-to-Market Concept

This is a new-to-market automated phone case vending business located in a high-foot-traffic retail site at 280 Queen Street (contract secured until February next year). The machine is fully unmanned and produces custom phone cases on demand in under 3 minutes, offering both standard and magnetic case options. It operates on a fully cashless system with simple inventory management and minimal day-to-day involvement.

Current revenue is approximately NZD \$5,000 per month, with strong upside potential through expanded marketing. The business is relocatable after February 2027, allowing optimisation for other high performing sites. This is an ideal opportunity for a buyer seeking a scalable, automated retail business with low overheads, fast production capability, and significant growth potential in a rapidly evolving personalised accessories market.
