

For Sale

Location: **Bay Of Plenty**
Asking: **\$395,000**
Type: **Services-Home/Garden**

EROSION CONTROL - ENVIRONMENTALLY FOCUSSED Owner operator who enjoys the outdoors - Bay of Plenty

Business Opportunity

This business is involved in the hydro seeding and erosion control industry and provides a wide range of ecologically responsible and technically advanced environmental services for a wide range of commercial and residential customers. They are a market leader in the Bay of Plenty area and have strong diverse relationships within the horticultural, civil, local authorities and construction industries as well as private individuals.

The business, which has been operating since 1995, is currently located in the greater Tauranga region, and is operated from the owners own home.

Plant & Equipment

The Plant and Equipment list consists of specialist machinery and includes two truck units which will allow the business to expand without the necessity for an immediate capital injection for plant.

New Owner

The new owner will not require any specific qualifications but will have organisational and practical skills and enjoy working outdoors.

Reason for Sale

The current owners have operated the business for 26 years. Due to recent medical issues, they have decided it is time to move to the next stage of their lives and enjoy early semi-retirement.

Net Surplus EBPITD: \$159,785 for year ended March 2026

EBPITD: Earnings before proprietors income, interest, tax and depreciation.
