

Engineering & Fabrication Business for Sale Top of the South

Top of the South; Wide Industry Spread

The Business

This very established business has a wide range of clients, with risk well diversified across companies, industries & sectors. The industries being serviced include:

- Mining & Mineral Extraction
- Civil & Road Works
- Infrastructure
- Concrete & materials manufacture
- Food & other manufacturers
- Waste Management & Recycling
- Commercial Services
- Automotive & Heavy Machinery
- Transport & Distribution

There is an even split of sales between larger projects and ongoing repair, maintenance & service work. There is an extensive workshop & yard space and a new lease will be negotiated with the business buyer that works for all parties.

The Team

The current owner is occasionally "on the tools", but more commonly focused on client engagement, business development, organising materials & supplies and oversight of job cards & invoicing. In addition, there are four very capable workshop technicians and office/admin support.

Business Resources

The Buyer

Buyers could include someone who understands fabrication & a workshop environment; or a trade buyer seeking exposure to this region and/or the industries & clients serviced by our vendor. This is a lifestyle location and a business that has helped our vendor accumulate significant assets that will enable them a comfortable retirement. The vendor is happy to provide an appropriate handover period, albeit there is an experienced 2-I-C who will also significantly assist the new owner.

First time on the market since inception, this business represents an excellent opportunity.
