ENERGY SECTOR SHAREHOLDING
Address disclosed to approved buyers

Energy Sector Shareholding. Passive Investment. Forecast Profits \$800,000

Looking for a cash cow on steroids, producing significant passive profits?

On offer is a 24.99% shareholding that is forecast to return \$10 million over the term of the shareholding, based on a 10-year relationship aligning with the lifecycle of the technology.

The investment is on a passive basis with no involvement in decision making or day-to-day operations. The product produced is in strong demand, with a number of large NZ businesses placing orders for the product.

The infrastructure is fabricated, tested and in production. There is significant IP in play, making them the only manufacturer of these products in NZ. Creating a significant advantage over the imported products. This is a high demand sector in NZ and future opportunities exist for larger scale projects.

There is extensive financial forecasting available to approved purchasers.

Viewing the plant is a must see for any investor who likes big boy's toys that make money.

Business Highlights

- High margin industry
- Passive investment with strong upside
- Option to partner with vendor on future tech projects
- Multiple revenue streams
- Proven technology
- New Zealand's only operation / zero competition
