## Specialist Mowing, Mulching & Vegetation Management Business

**Established 2017 | Recurring Revenue | Extensive Equipment Fleet | Significant Growth Potential**

**This is not your standard mowing business.**

An exceptional opportunity to acquire a well-established specialist mowing, mulching and vegetation management business that has built a reputation for taking on the jobs many competitors simply can't.

Operating within a niche sector of the grounds maintenance industry, the business specialises in slope mowing, large-area mowing, mulching, vegetation management and land clearing across residential, commercial and rural sectors.

Supported by strong recurring maintenance income, loyal long-term customers, an extensive fleet of specialised machinery and proven systems, the business provides immediate cashflow together with significant opportunities for future growth.

### Why This Business Stands Out

- ✓ Established business with a proven track record since 2017
- ✓ Strong recurring maintenance income and loyal repeat customer base
- ✓ Diverse services including:
  1. Specialist slope mowing
  2. Large-area and commercial mowing
  3. Mulching and vegetation management
  4. Land clearing
  5. Lifestyle property maintenance
- ✓ Extensive fleet of specialised machinery included in the sale
- ✓ Proven systems and established operational processes
- ✓ Strong reputation built on quality workmanship, referrals and long-standing client relationships
- ✓ Significant barriers to entry through specialised equipment, industry knowledge and expertise

### Growth Potential

The business is well positioned for continued growth through expanding commercial maintenance contracts, increasing vegetation management services, growing into neighbouring regions and further utilising the existing equipment fleet. With the infrastructure and systems already in place, there is significant opportunity for a new owner to build on an already successful operation.
