

Window Visor Business for Sale Far North

Turn key business | New website | Plenty of stock

This is a ready-to-go window visor business opportunity, perfect for someone with the time to run it. The business has shown proven demand through Facebook Marketplace sales, and the newly built Shopify website (raindeflector.co.nz) is set to generate online sales.

Included in the sale: a fully built Shopify website with product listings, over 2,100 sets of stock across 23 vehicle-specific fitments, and an organised storage system. Stock includes sets for popular vehicles such as Ford Focus, Honda CR-V, Mazda CX-5, and Toyota Hilux Ute, among others.

Financially, the numbers are compelling: with a \$10,500 asking price, that's just \$5 per set. The potential retail value exceeds \$105,000, with options to sell at different price points for substantial profit margins. This business is home-based with low running costs and is simple to operate—just list on TradeMe and the Shopify website, then pack and post.

Ideal for someone in Auckland looking for a manageable side hustle. The setup is complete; it only requires minimal time to manage orders. Must sell at \$10,500 ONO. Serious buyers are welcome to inquire about full stock quantities.

Location: **Northland**

Asking: **\$10,498**

Type: **Transport/Automotive**
