Established Red LBP Marlborough Building Inspection Franchise - Exclusive Territory & Proven Income

Red LBP Marlborough is an established independent property inspection franchise that provides pre-purchase building inspections, Healthy Homes assessments, and related inspection services throughout the Marlborough region.

Backed by a recognised national brand, the business offers proven systems, comprehensive training and ongoing support, and the freedom of owning your own business.

Demand for professional building inspections is driven by property sales, investor requirements and Healthy Homes legislation, providing excellent potential for continued growth.

The franchise includes an exclusive Marlborough territory, established income and an existing workflow, allowing you to step into a business already generating revenue with a strong brand presence.

The current owner operates both the North Canterbury and Marlborough territories, and continued growth has created the opportunity for Marlborough to become a standalone franchise.

An outstanding opportunity for a motivated Licensed Building Practitioner (LBP) to own and grow an established business or add a profitable income stream to an existing building company.
