

Mobile Event Catering Business for Sale Bay of Plenty

Premier Mobile Event Catering Business NZ

One of the North Island's leading mobile catering businesses is now available for purchase after nearly a decade of successful trading.

Established in 2016, this highly regarded operation specialises in servicing large-scale concerts, festivals, sporting events, agricultural shows, corporate functions and private events. Operating two fully equipped food trucks together with a third portable catering operation, the business has the capacity to service multiple events simultaneously, creating diversified revenue streams and excellent operational flexibility.

A key strength of the business is its long-standing relationships with major event organisers throughout the North Island. These relationships have secured repeat bookings at many premier events where vendor spaces are limited, creating a significant barrier to entry for competitors.

Supported by proven systems, established supplier relationships and professionally developed branding, the business is well positioned for continued success. All branding, menus, photography, vehicle graphics and marketing assets transfer with the sale.

Unlike traditional hospitality businesses, this operation is fully mobile and currently services events throughout the Bay of Plenty, Rotorua, Taupo, Auckland and other North Island locations. The business can also be relocated, providing exceptional flexibility for a new owner.

The vendors are selling due to genuine family commitments, creating an excellent opportunity for an owner-operator or hospitality group to acquire a profitable business with forward bookings, recognised branding and significant growth potential. Opportunities exist to expand event coverage, increase portable catering services and develop additional revenue streams.
