Location: **Queenstown**
Asking: **\$85,000**
+GST if applicable
Type: **Services-Home/Garden**

Nearly 100 Recurring Fortnightly Clients — Profitable, Low Overhead Mowing Business with Truck & Equipment Included

Summit Lawns is an established residential lawn mowing and property maintenance business built on a loyal, recurring client base.

Ready-made recurring revenue. Just under 100 clients on standing fortnightly mowing rounds, plus 35 new clients added in the past year — the growth curve is active, not stalling.

Turnkey setup. A truck, mowers, and a custom-branded trailer are all included, so a buyer can start earning from day one with no start-up capital needed.

Fast payback. Based on current recurring revenue and growth trajectory, the business is forecast to pay for its \$85,000 asking price within roughly six - eight months of trading.

Simple to run. One operator plus occasional subcontractor help has been enough to service the full round — easy to hand over, with room to add a second operator and scale further.

Demand exceeds capacity. Local trade connections and commercial relationships bring a steady flow of consistent work, to the point where it's difficult *not* to take on more — the business is turning away or queuing work rather than chasing it.

Proven local reputation. The brand has built enough trust in the area that new clients are already messaging in the middle of winter to lock in a spring mowing slot — a strong sign of demand and brand strength well ahead of peak season.

Genuine reason for sale. Owner is moving on to study, not walking away from a struggling business — this is a healthy, growing operation sold on the owner's terms.

Business Resources

Staff: owner-operator, with occasional subcontractor support during peak periods. Systems include but not limited to: Automatic Scheduling, Auto Text, Auto Email, Quick Invoicing, and SOPs, built so growth can happen quickly. Equipment: 2008 Holden Rodeo ute, Masport Contractor mower, Masport President 400 push mower, electric mower with 2x AP300 batteries, and a custom sign written trailer, Weed eaters, Leaf blowers and Misc. Premises: none required, fully mobile and home-based. Assistance: seller available for handover and training to ensure a smooth transition.
