CONFIDENTIAL ENQUIRIES

Established Auckland Service Business - Experienced Staff, Longstanding Clients, Recurring Work & Capacity for Growth

An opportunity to acquire an established Auckland-based B2B service business providing essential workplace services to a broad range of commercial clients.

Operating successfully for seven years, the business provides both mobile on-site services and services from established premises.

Long-standing client relationships, proven systems and existing infrastructure allow a new owner to step into an operating business from day one rather than building one from scratch.

Following a restructure approximately nine months ago, the business operates efficiently with a lean cost base while maintaining established service capability. Existing infrastructure and service capacity provide an incoming owner with the opportunity to pursue further growth through proactive sales, marketing and client development.

Option to include Operational Working Capital of up to \$25,000.

Business Resources

Proven operating procedures, systems and reporting processes are already in place, together with regular client programmes.

Two fully equipped mobile service vehicles, established leased premises, specialist equipment and operational assets are included.

An experienced technician has indicated a willingness to remain, subject to agreement with the purchaser.

The business operates within an established licensed structure, with transfer subject to Head Licensor approval. Vendor transition and handover support will be provided.
