

Bakery & Coffee Shop Business for Sale Petone

Established multi-stream bakery with rising revenues, a prime Petone location and lots of potential

The Chubby Baker is a well-established scratch bakery in Petone, producing high-quality pastries and baked goods entirely in-house using documented recipes and processes. With more than six years of trading, strong brand recognition and diversified revenue streams across retail, catering, wholesale, school lunches and custom cakes, the business has grown to \$644k in FY25 with consistent 66-70% gross margins. Operating seven days a week from a high-visibility site with ample parking, it benefits from steady foot traffic supported by recurring catering demand from local businesses and organisations. With multiple under-developed revenue channels and strong operational foundations, this is an attractive opportunity for an owner-operator or investor seeking a profitable, scalable hospitality business with significant upside.

Business Resources

Includes long-standing, experienced staff proficient in all production processes and quality standards. Recent investment in new chilled display cabinets, new commercial-grade equipment and upgraded digital systems positions the bakery well for further scale. Strong branding and established supplier relationships are included. The premises have a secure lease through to 28 February 2030, with one further six-year right of renewal, plus a 33% rent reduction every January during the quieter period. Transitional assistance available.
