# Cosmetic Clinic Business for Sale Auckland

## Urgent sale: Remuera cosmetic clinic, est. 2007, 1,100+ clients, $150K–$200K potential for nurse injector owner

Boutique cosmetic injectables and skin clinic in Remuera, trading since 2007. A high-end practice with a loyal clientele and a database of about 1,100 clients, not a mall or chain clinic.

The clinic has run without a full-time injector. A nurse injector working in the business as owner-operator could realistically earn $150K–$200K a year from the existing client base, with no money spent finding new clients. Workings available on request.

Three income streams: injectables, skin treatments and beauty therapy. Fully fitted and ready to trade.

The price reflects the owners' lack of time, not the clinic's potential. They run other businesses and are overseas from December. Takeover is available from the end of November. Name, address and financials are released once a confidentiality agreement is signed.

### Business Resources

Experienced clinic manager and senior beauty therapist runs day-to-day operations. Supervising doctor arrangement in place for injectors. Fully fitted treatment rooms and reception. Booking system, website and social channels running. Established supplier accounts. Stock included in the price. Premises on a main road: lease to 2030 plus 5-year right of renewal to 2035, with 3 dedicated car parks. Full handover at no extra cost, including introductions to key contacts and transfer of supplier accounts.
