Asking: **\$60,000**
+ GST if any
Type: **Franchise Resale / Services-Other**

Jim's Test & Tag Tahuna Franchise - Proven Model, Flexible Entry From \$60k

I own two Jim's Test & Tag territories and I'm selling this one, Tahunanui, to focus on my other operations. It's a proven, working model, not a distress sale.

Choose your entry: territory only from \$60,000, full training, equipment and insurance, build your own client base across Nelson's commercial, industrial and tourism sector, OR add approx. \$30,000 of established, transferable clients so you're earning from week one.

No electrical experience needed. This is compliance-driven, recurring commercial work. Flat monthly franchise fee, not a cut of revenue. Backed by NZ's most recognised test and tag brand, with South Island regional support.

Jim's Test & Tag territories rarely come up for resale. Serious enquiries welcome

Business Resources

Full Jim's Test & Tag systems, brand and IP licence for the Tahunanui territory. Includes all commercial appliance testing equipment and business insurance. Comprehensive technical and business training covering testing procedures, compliance standards, quoting and customer service, plus ongoing South Island regional support and local coaching. No staff included; the franchise is designed as an owner-operator model, with proven systems and processes.
