Established kit-set horse shelter business with proven sales, documented systems and nationwide growth potential

Stable Shelters manufactures Medium, Large and Extra Large kit-set horse shelters with proven customer demand and an established trading history. The business has operated successfully part-time with enquiries generated predominantly through Facebook and Trade Me.

Production is simple, low-overhead and can operate from a yard, shed or workshop using basic tools and standard construction materials.

The sale includes the Stable Shelters brand and goodwill, website/social assets, three developed product designs, 3D models, manufacturing and installation manuals, costing and operating systems, marketing content and nationwide freight information.

Three days of practical owner training are included, along with manufacture and assembly of a Large or Extra Large demonstration shelter.

Business Resources

Stable Shelters operates with no employees and requires no specialist premises or machinery. Production can be carried out from a suitable yard, shed or workshop using basic portable tools and a trailer. The business includes documented manufacturing and installation manuals, 3D models, costing and operating systems, marketing assets and freight information. Three days of practical owner handover and training are included to assist the purchaser with production, quoting, ordering and business operation.
