

Childcare Centre Business for Sale Manawātū

Childcare Centre Business - Manawātū-Whanganui region

An outstanding opportunity to acquire an established early childhood education centre positioned within one of New Zealand's growing regional markets.

This modern, purpose-built centre combines quality facilities with an established operation and an attractive, strategic location close to a major local employer - providing access to an important family catchment.

A key feature of the business is its staff-managed operating model, with the current owners' involvement being limited to a minimal level of operational support. This presents an attractive proposition for an owner looking for an established centre without the demands of a full-time operational role, or for an existing operator seeking a quality low maintenance regional acquisition.

Key highlights include:

- Staff-managed operation with low owner involvement
- Modern, purpose-built childcare facility
- Strategically located close to a major local employer
- Positioned within a growing regional New Zealand market
- Established operation with an experienced team

The vendors are seeking a purchaser who recognises the quality of the underlying business and its future potential.

Confidential information available to qualified purchasers upon signing of a non-disclosure agreement.
