

B2B Catering Business - \$215,000 BUSINESS ONLY Business for Sale Tauranga

Established B2B Catering Business - BOP

An opportunity to acquire an established Bay of Plenty B2B catering business with long-standing customer relationships, an established operating model and a history of profitable trading.

Established by the original owners in the early 1990s and operated by the current owners since 2005, the business provides daily prepared meals to long-standing B2B customers, supported by established production and distribution systems.

Revenue and normalised trading profit have increased year-on-year, and the business includes more than \$55,000 of tangible business assets.

The business is operated by two working owners, averaging approximately 20 hours each per week, making it suitable for a couple, owner-operator or an existing food or catering business looking to add an established B2B revenue stream.

Purchasers have flexibility around how the business is acquired:

Relocatable business – purchase the business and transfer operations to another suitable commercial kitchen or existing food-production facility. With customers located across the North Island and distribution already outsourced, there is potential to relocate the business outside the Bay of Plenty, subject to suitable premises and applicable regulatory requirements.

Home and income – purchase the business together with the owners' substantial Bethlehem residence, including the commercial kitchen from which it currently operates. The associated residential property is being marketed separately by EVES Real Estate by Deadline Private Treaty, closing **3.00pm on 21 October 2026 (unless sold prior)**.
