

Metal Roof Manufacture & Installation Business for Sale Taupo

Metal Roof Manufacture & Installation

Ready to scale a roofing business with its own supply chain? This established Taupō contractor and its components manufacturing arm grew combined sales 86% in two years, to \$2,798,003 in FY2026.

The business installs reroofs, new roofs, cladding and spouting for homeowners, builders, schools and councils across the central North Island. Its manufacturing company folds flashings and rainwater goods in house and sells to other roofers, so installs are not held up and the folding margin stays in the business. Two companies, sold together as one going concern.

Key highlights:

- Revenue \$2,798,003 | Gross profit \$1,401,980 (50%) | EBPITDA \$559,390 (FY2026)
- EBPITDA up from \$298,615 in FY2024
- Manufacturing sales up from \$185,079 (FY2025) to \$544,079 (FY2026)
- Vendor advises external trade customers take 50 to 60% of folding output
- New long length CNC folder on order, included at cost
- Operations Manager and Site Foreman in place, 8 full time staff
- Vendor advises around 80% of enquiries arrive through the website
- Vendor stays on for 12 to 24 months to hand over

Suits an experienced roofing operator, or an investor or industry player looking to scale, ideally one bringing formal systems.

Price: \$1,550,000 + GST (if any)
