

Global Engineering Service Franchise for Sale Auckland

Global Engineering Service Franchise. Exclusive.

A rare opportunity to acquire the exclusive New Zealand franchise of a successful global service brand with an established international network and proven specialist systems.

Operating in New Zealand since 2012, this highly profitable business holds the exclusive rights for the New Zealand market, providing a significant competitive advantage. The combination of global franchise backing, exclusive territory, proprietary systems, specialist technical knowledge, certification and training requirements creates substantial barriers to entry and minimal direct competition.

The business has developed a strong and diverse base of repeat commercial customers throughout New Zealand, including major corporates, contractors, technical service providers and other established organisations. Long-standing relationships and specification into industrial, commercial and domestic projects provide an important source of ongoing demand.

Financial performance is exceptional. FY26 revenue reached approx. \$2.82M, with adjusted owner-operated earnings of approx. \$1.44M.

A skilled technical team and operational systems are already in place, supported by a strong pipeline of confirmed work. The operation is currently close to capacity, providing a new owner with considerable scope to expand.

Growth opportunities include increasing operational capacity, geographic expansion, introducing additional specialist services and developing recurring maintenance programmes.

This is a rare chance to secure the exclusive New Zealand franchise rights to a proven global brand, while acquiring an established, highly profitable and difficult-to-replicate local operation.

Contact Serdar for more information, including the channel revenue breakdown and vendor growth plan, available under signed confidentiality agreement.
