OPPORTUNITY

Established, Fully Equipped & Consented Gym - Live the Mount Maunganui Lifestyle

An exciting opportunity to acquire an established, fully equipped commercial gym in Mount Maunganui, combining business ownership with an enviable coastal lifestyle.

Currently operated remotely, the business benefits from established systems that allow management and administration without the need for the owner to be permanently on-site.

Operating from approximately 300 m² of purpose-fitted premises, the gym features an extensive range of high-end commercial-grade strength and cardio equipment, quality facilities, an established membership base and recurring revenue.

Now in its seventh year of trading, the business is fully operational, with an established membership base, recurring revenue and opportunities for further growth under new ownership.

Available with a proposed new lease, with the option to purchase the separately owned leasehold commercial premises by negotiation.

Business Resources

The gym operates with established remote management, membership administration, access control and payment systems, allowing day-to-day oversight without permanent on-site staffing.

Approximately 300 m² of purpose-fitted premises accommodate an extensive range of high-end commercial-grade strength and cardio equipment, air conditioning, changing facilities and showers.

The business is offered as a fully operational going concern, with existing systems and equipment in place. Owner assistance can be provided during an agreed handover period to support a smooth transition.
