Established Engineering Business

Business for Sale Description

Established Engineering Business for Sale Otago

Specialising in structural steel, farm maintenance, light engineering, sheet metal work and all-round jobbing, and boasting a loyal customer base, this business has gone from strength to strength.

This successful business has shown strong profits for the current working owner.

This opportunity would equally suit an experienced engineer working hands on an owner operator; or an investor focused on growth to realise further potential from the booming regional construction industry by running this as a managed business.

\$375,000 plus SAV (currently approximately \$20,000) plus GST (if any)
