

Construction Business for Sale Auckland

Location: **Auckland**
Asking: **\$680,000**
Type: **Construction**

Unique and Profitable in Construction

Business for Sale Description

Construction Business for Sale Auckland

This is an opportunity to acquire a key element in the fast growing housing and construction repair market. A pioneer in the sector, this company is the only NZ company employing these repair techniques, and is a unique supplier to Housing New Zealand, as well as private projects. These proprietary techniques are also recognized by insurance companies.

This business would appeal to a builder who could take advantage of the fact that the high margin profitable specialist repair work that this business undertakes inevitably leads to the opportunity to quote for additional building work. Alternatively someone who has business administration skills or practical knowledge in construction and machinery operation could run the business and engage a licensed building practitioner to supervise the work as required.

With Sellers Discretionary Earnings of \$330,000 for the last financial year, the asking price of \$680,000 includes essential plant and machinery.
