Truck and tractor dismantling combined with new after market parts.

Business for Sale Description

Truck and Tractor Dismantling Business for Sale Inglewood Taranaki

This business was established in 1990. Buying secondhand trucks breaking them down and selling the parts. In about 2001 the business started selling new after market parts which complements the secondhand parts rather well. In 2014 the business has also branched out into dismantling tractors and selling tractor parts. The business is showing good profit each year with lots of scope to expand. This business works in with other companys but does not depend on them for its overall well being. There is no land lord or parent company making life difficult. the more you put in the more you can get out of it.
