Franchise for Sale Description

National Drones New Zealand Franchise for Sale NZ Wide

Recent advances in battery technology, coupled with the emergence of reliable and affordable RTF (ready-to-fly) systems, has seen a number of industries embrace the technology commonly known as 'drones', as a way to cut costs, deliver efficiencies. Using these tools and working with the New Zealand Team you will develop the brand and services in New Zealand, building lasting commercial relationships.

Business Resources

Access to National Drones own Smart Data system, Supported by technical staff in Brisbane QLD and on the ground by the master franchisee we will help you drive the business forward. We are ISO accredited which stands well with large organisations and government bodies.

You will be trained to fly but more importantly develop a business plan to target the opportunities that exist. Using a range of case studies and technology you are well equipped to show potential clients what we can achieve, Safer Smarter Faster.
