Business for Sale Description

Tyre Shop Business for Sale Auckland

High exposure and well presented tyre shop located on a major arterial road in an industrial/residential area.

A fully equipped and extremely well presented tyre shop with a focus on car, campervans and light truck tyres and wheel alignments. Sales are generated from a range of sources and customers.

Given its high profile location on a main arterial road, their easily seen signage works 24/7; and being in a complex surrounded by supporting businesses including a mechanical workshop that issues WOF, LPG filling station, vehicle hire business and other businesses increases its exposure to customers.

Being part of a North Island tyre group helps achieve a high gross profit margin.

Plant & Equipment Includes:

- An alignment machine
- Two X 4,000 Kg hoists
- Wheel balancing machine
- Full range of other equipment including a lot of racking

Having negotiated the sale of a number of tyre shops over the years, I have found them to be very good businesses, so if you're a little mechanically minded and think this could be for you please contact me for a confidentiality agreement, once it is completed and returned I'll send an information memorandum.
