Grain, Lentil and Flour Wholesale Business

Business for Sale Description

Wholesale Food Business for Sale Auckland

An excellent opportunity to purchase a running grain, lentil and flour import and distribution business catering to Indian grocery stores.

The Vendor has decided to retire.

Importers contracts in place. The Vendor procures the grain and lentil from overseas. He processes the Flour in his workshop.

The Vendor does not actively market the business so therein lies the prospect for an incoming owner to increase sales.
