Outdoor Power Equipment - Bay of Plenty Lifestyle

Business for Sale Description

Outdoor Power Equipment Business for Sale Bay of Plenty

A long established rural services business showing profits of \$134,000 p.a. to the working owners.

Here's a fantastic opportunity to purchase a locally well-know, and highly regarded, business that sells and services outdoor power equipment and farm bikes.

The business occupies an excellent, high-profile location with prosperous surrounding agricultural activity and where money is spent on keeping properties in great shape.

Although a mechanical aptitude would be helpful, this is by no means a pre-requisite and skills in sales and customer service may be more beneficial.

The business is very long established, well recognised and showing solid sales of over \$1M per annum.

Price \$145,000 plus stock (approx. \$65,000).
