New Zealand Produce Exporter

Business for Sale Description

Produce Exporting Business for Sale Wellington Relocatable

Our client's business specialises in exporting premium quality New Zealand, fruits, vegetables, seafoods and meats. Growth in this sector is driven by ever-increasing demand for fresh New Zealand produce.

The operations are very smart, lean and efficient, with surprisingly low overheads. The business is totally mobile and is currently based in CBD Wellington.

The growth opportunities are only limited by your business development functions and drive. The risks are low, the returns are high, seldom do they look this good.

Our client has owned the business for ten years, they have done well from it and now wish to move on to other opportunities.

The current owners are open to working on within the business to ensure a successful transition.

** Highly profitable

** Unlimited potential

* Unique business model
