PVC Fabrication, Sewing & Welding. 45 Year Track Record

Business for Sale Description

PVC Engineering Business for Sale East Auckland

After 45 years our owners have made the decision to retire, this is a rare opportunity to take on an established business that has stood the test of time, with great returns and flexibility that allows you to do what you want, when you want.

This business has built a reputation for its first class products and service along with longstanding customer and supplier relationships, allowing the new owner to hit the ground running. Three years of financials all show stable top line revenue and bottom line profit, which will be provided to qualified buyers.

What skills and experience do I need? You just need to be able to measure twice and cut once. The existing owner will provide an extensive handover and support to allow a seamless transition to the new owner.

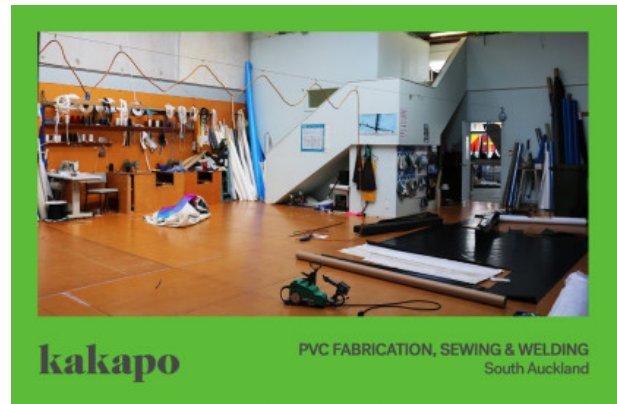

Business Highlights

- FY2020 Cash surplus to the owner of \$170,000+
- High demand product business
- 2x working owners currently work 50 hours a week (combined)
- Opportunity to expand existing range
- Extended vendor handover on offer
- Three years of 'bank-friendly' accounts
- Multiple revenue streams and large client base

Call Raj Brij on (021)386-212 if you are looking for a longstanding and highly reputable business with great profits.
